I stand alone, Gazing down upon, All I have ever known, All I will leave behind. With a fresh perspective, I stand. Glancing back at where I have been, What I have achieved. People I have met, Mistakes I have made. Yet now it all seems so far away, As I stand on this great cliff, Looking down. With the past behind me, The bright future lies ahead. I am in the present, Time blends together, *I stand alone.

Class of 2011! We've finally made it to high school! One of the most involved classes with every club and team filled with freshman students! Whether it's band, football, soccer, theater or anything else, we had it all covered. Freshman class may have been the hardest because of our inexperience but our willpower made up for it.

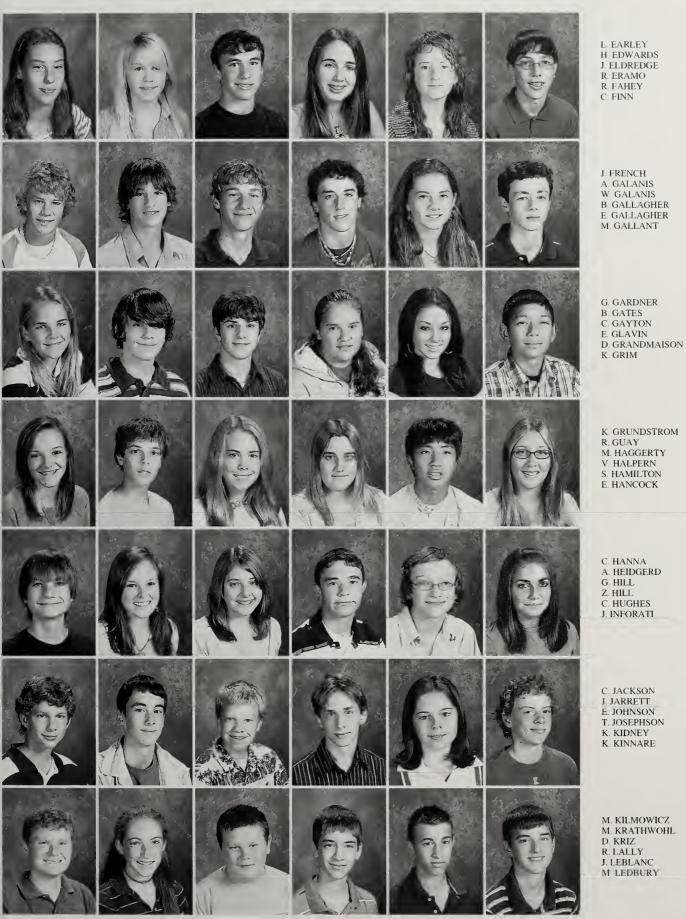

Of course our journey wasn't an easy one but we made it through pretty well. Certainly who could forget our incredible spirit week. We won the basketball shootout, leap frog and more. No one would ever think that the youngest class would even have a chance, but we still survived and even picked up some points along the way. The number of dedicated students willing to take part in events, with not enough people, was overwhelming and compared to past freshman classes, we did a good job.

Whether it's because of our determination, athletic abilities, school spirit or anything else, the Class of 2011 will be one to remember!

To the Class of 2010,

One of the most eye-opening experiences is being a sophomore. When you arrive as a freshman, high school seems like one never-ending journey. But now, half way finished, we're slowly realizing how fast this "journey" really is.

The Class of 2010 goes above expectations; we are respectful, intelligent, athletic, musical, and funny. We know how to make others feel good; how to smile; how to laugh; how to inspire; and how to appreciate people. We are the class with many aspects to be proud of.

For those who believe all sohpomores confirm their definition as "wise fools," I believe the Class of 2010 will prove them wrong and set our standards high. We define ourselves by working together: whatever the project, we help each other. Whatever the problem, we find a solution.

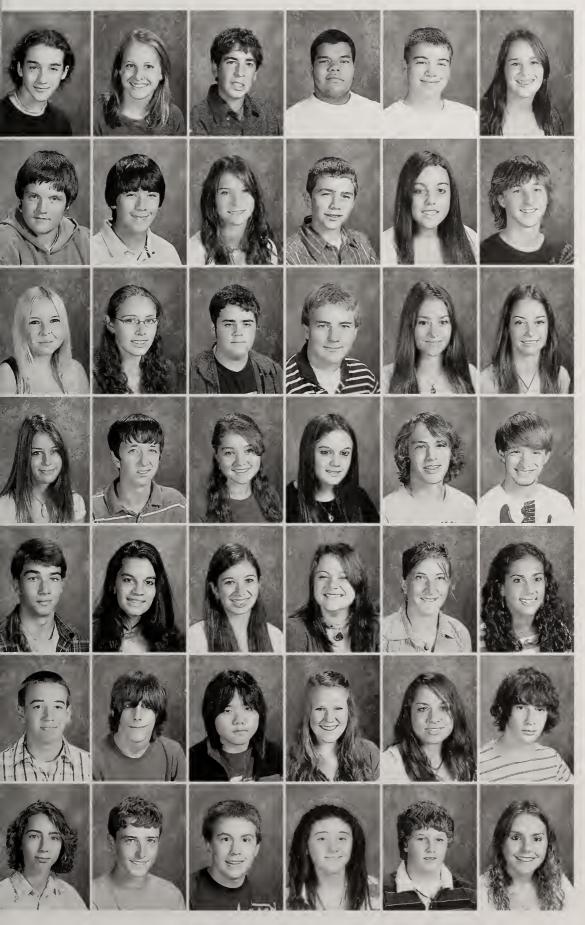

We have set goals: to achieve only to the best of our ability, to put kindness above everything else, and to strive to be extraordinary in all areas of life.

Next year, we'll be juniors and college will be just around the corner. So as sophomores, let's make **smart** decisions, always be **brave** and,

Let's have a good time!

Juniors

Junior year is the time for all students, who wish to excel in their coming endeavors, to make known their personal potential not only to college admissions offices or latent employers, but also to Gandalf the Gray. As President of the Class of 2009, I see potential in each and every classmate I have thus far met.

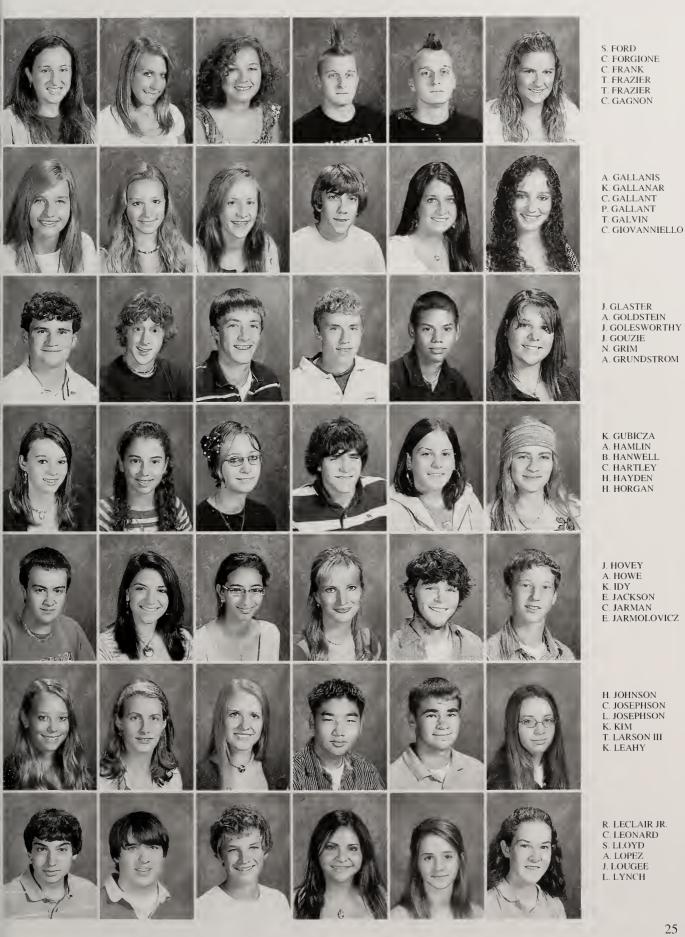

Every athlete has the potential to have their jersey retired not because of hygiene issues, but because of their dedication and ardor for their particular sport. Each musician that has graced our stage with their aptitude and ability has been given the privilege to make lasting memories, no matter the number of next door neighbors they may have angered along the way. The actors, as well as their technological assistants, that have aided in the production of the number of plays performed over the past three years cease to astound their audiences with their various talents and appetites for accomplishment. Artists, whose incredible works embellish the walls of our school, continue to overwhelm each student who is privileged enough to see their pieces throughout the building. Finally, the scholars that excel in their courses and lead their classmates academically have the potential to herald the capacities of their fellow students, as well as to set the stage for a future guided by our very generation.

We have all since been guided by Ipswich High Schools brilliant teaching staff, its first-rate principal and assistant principal, its guidance counselors, and, confidently, our class officers and advisors. Similarly, we have received personal support from our family and friends. However, there comes a time when each of us must debut and pitch ourselves into reality. In accordance with a notable Chinese proverb, Teachers open the door, but you must enter by yourself. In all sincerity, I trust that each student of the Class of 2009, in this past year, has prepared themselves to open their own individual door.

Congratulations and good luck to the Class of 2008!

FOREVER YOUNG (R. Stewart/J. Cregan/K. Savigar)

May the good Lord be with you Down every road you roam And may sunshine and happiness surround you when you're far from home And may you grow to be proud Dignified and true And do onto others As you'd have done to you Be courageous and be brave And in my heart you'll always stay Forever Young May good fortune be with you May your guiding light be strong Build a stairway to heaven with a prince or a vagabond. And may you never love in vain and in my heart you will remain And when you finally fly away I'll be hoping that I've served you well For all the wisdom of a lifetime No one can ever tell But whatever road you choose I'm right behind you, win or lose For, Forever young, Forever Young.
